GREEN AUDIT
Manual
2018-19

Foreword

Establishment of internal policies and procedures for the eco-friendly environment of the institute is the main purpose of this report. Now a day, people have become more and more aware of threats to the environmental issues. Over the last decade in India, there has been in efforts in the areas of Green Environment.

This report entitled “**Green Audit Manual**” of AES’s Anekant Institute of Management Studies (AIMS), Baramati for the academic year 2018-19 has been prepared for submission to the authority of the institute. Objective of this report is to create awareness and urgency about Green Environment issues.

The report comprises findings of what institute has and where its lacking related to the different environmental issues. In the findings incorporated in this report focus is given on SWOT analysis based on the conclusion of the survey, personal interviews of the students and staff. This report would also help to sensitize policy makers to look into environmental issues with holistic approach and address the deficiencies in policies to make our campus environmentally more eco-friendly.

I. Renewable Energy Source in AES Camus

AIMS Camus has provision of renewable energy sources such as solar panels at girls and boys hostel and wind mill of 1.5KW at society campus. The electricity generated through this wind mill is commonly used by all the Institutions of Anekant Education Society. The batteries of power backup of AIMS are charged with electricity generated by Wind Mill.
